ABOUT OUR COMPANY
OVERVIEW

Finn Enterprises is a leading technical company with vast expertise in Mechatronics – a multidisciplinary field that integrates mechanical engineering (motion, mechanics, hydraulics, pneumatics), Electrical Engineering (Electronics, Circuits etc.) and Computer Engineering (such as microprocessors embedded in Electric Forklifts and Assembly lines).

It was incorporated in Malawi in January 2022. And it specializes in the repairs and maintenance of Industrial plant, machinery and equipment including counterbalance forklifts, Reach Trucks – diesel powered and Electrical, as well as petrol and gas powered machines. Our expertise extends beyond material handling equipment (forklifts and Cranes), to generators, and heavy industry automated systems. We are also fully qualified to repair and maintain Container handlers such as Kalmar, Terex and Hyster.

At Finn Enterprises, taking care of our customer needs and providing lasting solutions is an important pillar of our success. Our technicians understand that if we don't provide quality service to our customers, someone else will. Therefore, we offer a high level of excellence and good workmanship. Our technicians work odd hours and on public holidays to meet our customers' needs as part of our organizational culture. At Finn Enterprises, we understand that real business is not about profiteering, but it's about building meaningful partnerships that will result in a win win situation for both us and our customers.

Repairs & Maintenance of Industrial Plants & Machinery, and Supply of various types of Commodities.

OUR SERVICES

OUR CORE SERVICES

Forklift Repairs & Maintenance

We offer comprehensive diagnostic, repair, and preventive maintenance for all types of forklifts—electric, diesel, LPG, and gas-powered. Our skilled technicians are available 24/7, including weekends and public holidays, to minimize downtime and support critical operations.

Forklift Hiring

We provide flexible short- and long-term forklift rentals, ranging from 1 ton to 10-ton capacity. Whether you need a machine for a day or a year, Finn Enterprises has the right equipment for your operational needs.

Load Testing of Lifting Equipment

We ensure the safety and regulatory compliance of your lifting equipment through certified load testing. This is essential to verify structural integrity and ensure safe handling of the rated load capacity of your equipment.

Powering
Performance.
Elevating Productivity.

Forklift Operator Training

If we have a running service level contract with a customer, all forklift operator training is conducted by Finn Enterprises Free of Charge to ensure that our clients benefit from our partnership, which is designed to increase uptime, prevent equipment misuse and ensure our customers achieve maximum levels of productivity.

Spare Parts & Components Sales

We supply genuine spare parts for forklifts and cranes, including:

- Forklift tyres (solid and pneumatic)
- Hydraulic hoses and fittings
- Lifting chains, mast rollers and bearing, brakes, and more
- Load Forks
- Axle parts
- Transmission parts
- Engine Parts

Equipment Expertise

We specialize in servicing a broad range of lifting and industrial equipment, including:

- Electric Forklifts
- Diesel & LPG Forklifts
- Overhead Gantry Cranes (e.g., Lash, Demag, Konecranes and Terex)
- Truck-Mounted Cranes
- Container Handlers (Kalmar, Terex, Hyster)
- Conveyor Systems

TYPES OF FORKLIFT AND LIFTING EQUIPMENT WE SERVICES

- Electric Forklifts
- Diesel Forklifts
- LPG Forklifts
- Overhead Gantry Cranes
- Truck Mounted Cranes

Total Productive Maintenance (TPM)

This is a holistic approach to equipment maintenance that strives to achieve perfect production. With this program, we aim to achieve:

- No Breakdowns
- No Small Stops or Slow Running
- No defects

Our TPM program emphasizes proactive and preventative maintenance to maximize the operational efficiency of equipment. It places strong emphasis on empowering operators to help maintain their equipment. This will eliminate defects, increase up time, and improve productivity.

Additional Services

- Generator Repairs & Maintenance
- Industrial Machinery & Plant Maintenance
- Automated Systems Servicing

Why Choose Us?

- Multidisciplinary Expertise
- Emergency Response & After-Hours Support
- Partnership-Focused Service
- Strong Ethical Work Culture
- Commitment to Quality & Safety
